

Actuarial Society and MLRM:

To whom it may concern,

I worked closely with Pieter in the past when we were both actively involved in the management team of Sanlam Health, a Health Care company, where Pieter gave medico-legal advice and input. He also managed the call centre side of the business where nurses of his team assessed the symptoms of patients and then assisted them with self care advice and/or referrals to the appropriate level of care. Pieter and I stayed in close contact over the years and I have a lot of respect for his passion, work and dedication in the field of medical law. I want to wish Pieter and his team at Medico-Legal Risk Management the very best for the future.
