**“To whom it may concern.**

**What a pleasure to work with a consultancy firm like Medico-Legal Risk Management (MLRM), who were introduced to us via management at the City Council of Cape Town. Pieter and his team impressed us with going the extra mile and they really showed us and our clients that they can add true value.**

**They also impressed us with their network and connections and they are not shy to refer us to other competent companies in the areas that fall outside their specific scope of business.**

**We can recommend MLRM to any company that needs expert medico-legal advice regarding their business; needs research into the health care system and/or products and/or needs advice regarding IT interventions in the health care sphere.**

**Yours faithfully,**

Nathan Momsen

Managing Director  
Business Data Solutions  
A division of Kwena Solutions
