

Prosano and MLRM:

It is my pleasure to thank MLRM for the longstanding consultancy services and professional relationship between ProSano and MLRM.

MLRM has assisted us with many issues that posed medico-legal challenges. We found MLRM a very professional and diligent company.

MLRM, through the years, also conducted many workshops and lectures regarding medical law, risks in the clinical environment, civil and criminal law, disciplinary and administrative medical law and developments in health legislation, to our nursing staff.

We can recommend MLRM to any company with a need for expert advice on medical law, telemedicine and other related issues.
